

C1

Zaawansowane użycie czasów przeszłych

Na poziomie C1 czasy przeszłe służą nie tylko do określania czasu wydarzeń. Pozwalają pokazać:

- kolejność wydarzeń,
 - tło,
 - przyczynę,
 - rezultat,
 - czas trwania,
 - punkt widzenia mówiącego,
 - relację między wydarzeniem a innym wydarzeniem w przeszłości.
-

Past Simple

Służy do przedstawiania głównych wydarzeń.

I opened the door, walked inside and sat down.

Past Continuous

Może tworzyć tło:

It was raining and people were rushing home.

Może też podkreślać czynność przerwana:

I was driving when I heard the news.

Może wyrażać irytujący zwyczaj:

He was always complaining about his job.

Past Perfect

Pokazuje wcześniejsze wydarzenie z perspektywy przeszłości:

When we arrived, the meeting had already started.

Past Perfect Continuous

Podkreśla trwanie wcześniejszej czynności:

They had been negotiating for hours before they finally reached an agreement.

Porównaj

1

When I arrived, he left.

→ moje przybycie i jego wyjście są przedstawione jako wydarzenia w tej samej narracji.

2

When I arrived, he had left.

→ jego wyjście nastąpiło wcześniej.

3

She worked all day before she went home.

→ informacja o pracy.

4

She had been working all day before she went home.

→ mocniejszy nacisk na czas trwania i proces.

Narrative sequence

W dłuższej opowieści możemy przechodzić między czasami:

I was driving home when I suddenly realised that I had left my phone at work. I turned the car around and went back. I had been driving for almost an hour before I finally arrived at the office.

was driving → czynność w trakcie

realised / turned / went → główne wydarzenia

had left → wcześniejsze wydarzenie

had been driving → czynność trwająca przed późniejszym punktem w przeszłości

6. Reading

Przeczytaj tekst:

I had been working on the project for several weeks when the problems first appeared. At the time, I was managing a small international team, and we were preparing an important presentation. By the time we discovered the main problem, we had already spent hundreds of hours on the project. We had completed most of the research, but we hadn't tested one important part of the system. We eventually solved the problem, although we had been discussing possible solutions for several days before we found the right one.
