CZEŚĆ H — READING

Przeczytaj tekst:

Anna had always wanted to work abroad. If she had had the opportunity five years earlier, she would probably have moved immediately. Unfortunately, she was afraid of leaving her family and decided to stay in her home town.

Today, she has a successful career, but she sometimes wonders what her life would be like if she had made a different decision. If she had moved abroad, she might be living in another country now. On the other hand, she might have discovered that the new job wasn't right for her.

Anna is now considering another opportunity. She says that she will accept it as long as the conditions are reasonable. She knows that moving will be difficult, but she is prepared to take the risk even if some people disagree with her.

Looking back, Anna wishes she had been more confident when she was younger. However, she believes that it is never too late to make a change. If only she had understood this earlier.

Odpowiedz
