

B2

HOUSING, URBAN LIFE AND QUALITY OF LIFE

Na poziomie B2 analizujemy:

- koszty mieszkania,
 - jakość życia,
 - życie miejskie,
 - problemy mieszkaniowe,
 - suburbanizację,
 - wpływ miejsca zamieszkania na codzienne życie.
-

Advanced vocabulary

cost of living — koszty życia
housing costs — koszty mieszkaniowe
affordable housing — przystępne cenowo mieszkania
housing shortage — niedobór mieszkań
urban area — obszar miejski
suburban area — obszar podmiejski
public transport — transport publiczny
traffic congestion — korki
pollution — zanieczyszczenie
quality of life — jakość życia
local facilities — lokalna infrastruktura/usługi
commute — dojazd

City life

Living in a city offers:

- better access to education,
- employment opportunities,
- cultural activities,
- healthcare,
- public transport.

However, cities can also suffer from:

- high housing costs,
 - traffic congestion,
 - noise,
 - pollution,
 - overcrowding.
-

KARTA PRACY B2

Ćwiczenie 1 — Vocabulary

Wyjaśnij po angielsku:

1. affordable housing
 2. housing shortage
 3. traffic congestion
 4. quality of life
 5. commute
-

Ćwiczenie 2 — Advantages and disadvantages

Uzupełnij tabelę:

City	Countryside
_____	_____
_____	_____
_____	_____

Następnie napisz, które miejsce oferuje lepszą jakość życia.

Ćwiczenie 3 — Cause and effect

Połącz:

1. Housing prices increase.
 2. More people use cars.
 3. Public transport improves.
 4. More people move to cities.
- a. traffic congestion may increase
b. housing demand rises
c. commuting may become easier
d. affordable housing becomes more difficult to find
-

Ćwiczenie 4 — Discussion

Czy mieszkanie w dużym mieście zapewnia lepszą jakość życia?

Przygotuj argumenty za i przeciw.

READING B2

The housing problem

Housing has become an important social issue in many cities. As urban populations grow, demand for accommodation increases. In areas where the supply of housing cannot keep up with demand, prices may rise significantly.

High housing costs can have consequences beyond the housing market itself. Young people may delay moving out, families may choose smaller homes, and workers may live further from their jobs, resulting in longer commutes.

Governments and local authorities can respond by increasing the supply of affordable housing, improving public transport and supporting the development of areas outside city centres.

There is no single solution, however. Housing policy must take into account employment, transport, infrastructure and the quality of life of residents.

Questions

1. Why can housing prices increase?
 2. How can high housing costs affect young people?
 3. Why might workers live further from their jobs?
 4. What can governments do?
 5. Why is there no single solution?
-

LISTENING B2

Posłuchaj nagrania.

One of the biggest advantages of living outside the city centre is the lower cost of housing. You can often get a larger property for the same amount of money. The disadvantage is that you may have to commute every day. If public transport is poor, people often depend on cars, which can increase both travel costs and pollution.

Questions

1. What is the main advantage?
 2. What can people get for the same amount of money?
 3. What is one disadvantage?
 4. What happens when public transport is poor?
 5. What two consequences are mentioned?
-

SPEAKING B2

DEBATE

Should governments make housing more affordable even if this changes the character of cities?

Przedstaw:

- argumenty ekonomiczne,
 - argumenty społeczne,
 - argumenty dotyczące jakości życia,
 - własny wniosek.
-

WRITING B2

Napisz **180–220 słów**:

CITY LIFE OR LIFE OUTSIDE THE CITY?

Porównaj oba style życia i uzasadnij, który uważasz za lepszy.

TEST B2

1. "affordable housing" means:

- A. mieszkania dostępne cenowo
- B. luksusowe mieszkania
- C. mieszkania tymczasowe

2. "housing shortage" means:

- A. niedobór mieszkań
- B. wzrost jakości mieszkań
- C. nadmiar mieszkań

3. "traffic congestion" means:

- A. korki
- B. transport publiczny
